Sketching My World: The World Around Us

Encouraging kids to look at themselves & their surroundings - 2021

Sketch Clubs offer kids the chance to really look at the lines, shapes, patterns, forms, structures, spaces and surfaces of the world around them and gain greater experience & understanding of approaches to seeing, interpreting and representing the world in which they live.

The 2020 Sketch Club programs will move through a series of drawing activities that encourage kids to look at themselves, their surroundings and the amazing living things that share their world, capturing it all through drawing.

Each Sketch Club session is dedicated to the exploration and experimentation of mediums & the application of various approaches & techniques in the composition of a drawing based on each Terms program theme.

Each program may use various Drawing Materials & explore various Drawing Techniques, such as:

- Graphite (Pencils, Sticks, Powder, Soluble)
- Fine Liner, Sharpie, Felt & Ink Pens
- Drawing Ink
- Charcoal & Conte (Pencils & Sticks)
- Soft & Hard Pastel (Chalk & Oil, Pencils & Sticks)
- Colour Pencil
- Watercolour Pencil
- Mixed Media Collage

- Looking at Tone
- Looking at Distance & Perspective
- Looking at Line & Shape
- Looking at Surface & Texture
- Looking at Colour
- Looking at Composition
